

KLITI HAMATAJ

FULL-STACK DEVELOPER

ABOUT

Since I graduated in Geoinformatics Engineering I was always interested in technology and communication. For the last 3 years, I have worked in an environment where teamwork was critical and product quality and delivery was essential. Decided to become a developer to push even more my problem-solving, creative and strategic thinking skills. I'm a fast learner and flexible with technologies and stack. Focused on ensuring absolute customer satisfaction through delivery of exceptional customer services. Eager to find a position in the tech industry where I could bring all my skills together to continue improving and learning as a Full-Stack Developer.
